

TCM Forklift Parts

Forklift trucks are an important player in the material handling field of every international trade. Transporting industrial goods occurs each and every day on our hectic world. Originally innovated as industrial vehicles during the 1930s in the United States, forklifts gained popularity after World War II in the 1940s. Becoming a reliable and efficient means to material handling solutions, the need and practicality of these equipment spread worldwide.

First founded as Toyo Carrier Manufacturing Company Limited, in the year 1949, the business was later renamed Toyo Umpanki Co. before becoming known as the TCM Corporation. Established by Mr. N. Niwa manufactured Japan's very first forklift. Throughout the years, TCM forklifts have become an international leader in lift truck manufacturing and have built a solid reputation in the trade. TCM started constructing forklift manufacturing locations outside of Japan during the 1980s and is currently engaged in forklift manufacturer at three foreign factories in Europe, China and the United States.

TCM proudly makes numerous models of industrial trucks with over 50 years of accumulated technology and expertise, making their products used and recognized all over the globe. Characterized by strong initiatives and energetic staff, TCM continues to look toward the future and intends to become a world-class leading company.
